

Promoting Pollinators and Protecting Our Freshwater

May 20, 2017 • 1 p.m. • Jay's Sporting Goods in Clare, MI

The Clare Conservation District and Andrea Foster from Little Forks Conservancy invite you to discover how a rain garden can benefit your yard. Learn what a rain garden is, where to place one, what kinds of plant to put in it, and how to conduct soil tests for proper drainage. Andrea will discuss the construction and maintenance of Little Forks Conservancy's model rain garden.

Please bring a layout of your backyard or the location you would like to construct your rain garden.

The cost of the workshop is \$10.00 and registration is required.
Please contact the Clare Conservation District at 989.539.6401 or email Melissa.Townsend@macd.org
